Manufacturer's & Exporter's of Fresh Banana

G9 Cavendish Banana

Greetings from ASN BIO EXIM.....

The bananas we export are carefully selected by our team and then packed under our registered brand 'ASN Banana'. We source the bananas from banana plantations in South India especially the ones grown around the hills of Western Tamil Nadu. We have adopted 100% drip irrigation technology and have chosen a suitable area with an ideal climatic condition to cultivate the bananas. All the bananas are of same origin, variety and quality. We use hygienic containers to pack the bananas.

There is a huge demand for fresh Cavendish bananas across the world. ASN Fresh Banana is cultivated with all technical assistance required to produce fruit that meets our quality specifications. Our farm is one of the largest Green Cavendish cultivating areas in the country adopting cent percent drip irrigation technology and most ideal climatic condition for cultivating banana surrounded by Hills of Western Ghats.

We procure these from certified vendors to ensure wholesomeness of the product. The offered product range is available in standard as well as customised specifications. Our ability to deliver large volumes within a stipulated time schedule has aided us in developing strong business alliances and relationships with a number of reputed vendors across the domestic and international market

Red Banana variety- This banana variety has a tall plant with a robust stature. Fruit, petiole, pseudostem, and midrib have a purplish red color. The weight of a bunch is 20 to 25 kg, the number of hands per bunch is 6 to 7 per bunch and the number of fruits is 80 fruits per bunch on average. This variety of bananas has an average length of 16 to 18 cm.

Nendran Banana Variety- This banana variety is found with diversified, multiple plant stature. Its bunch is grown with 5 to 6 hands and weighs around 6 to 12 kg per bunch. This fruit has thick green color skin which turns buff yellow on ripening. It has a distinct neck shape and size. Fruits are observed starchy even on ripening.

Country of origin of farm-fresh bananas supplied-exported by ASN : India, Indonesia, Vietnam, Thailand, Malayaisa, Singapore, Middle East, Iraq, Iran, UAE, Oman, Uzbekistan, Saudi Arabia, Nepal, Qatar, Kuwait, Bahrain, Afghanistan, etc. countries.
